

Booking Date 23/10/2015

Patient ID 011510230035

Printed on 07/12/2015

Name Mrs. Sarita

Age 28 years

Sex F

Ref By Medi Path Lab

DIAGNOSIS: Normal Female Karyotype

KARYOTYPE: 46, XX

Peripheral Blood Chromosomal Analysis:

Please Note: Although the methodology used in this analysis and interpretation is highly accurate, it does not detect small rearrangements and very low-level mosaicism, which are detectable only by molecular methods. Failure to detect an alteration at any locus does not exclude the diagnosis of any of the disorders.

KARYOTYPE: 46, Normal Sex Chromosomes
